

EnsDb.Rnorvegicus.v75

October 20, 2017

EnsDb.Rnorvegicus.v75 *Ensembl based annotation package*

Description

This package loads an SQL connection to a database containing annotations from Ensembl. For examples and help on functions see the help pages from the `ensemldb` package!

Note

This data package was made from resources at Ensembl on Tue Nov 15 20:54:31 2016 and based on the 75

Author(s)

Johannes Rainer

Examples

```
## load the library
##library(EnsDb.Rnorvegicus.v75)
## list the contents that are loaded into memory
ls('package:EnsDb.Rnorvegicus.v75')
## show the db object that is loaded by calling it's name
EnsDb.Rnorvegicus.v75

## for more examples see the ensemblldb package.
```
